

Dürr Group achieves platinum status in the EcoVadis sustainability rating

Bietigheim-Bissingen, February 9, 2026 – The Dürr Group has achieved the highest category, platinum status, in the current EcoVadis sustainability rating. This places the mechanical and plant engineering firm in the top 1% of all assessed companies. With 85 out of a possible 100 points, the company not only improved on its previous year's rating (79 points, gold status), but also achieved its highest score to date. The decisive factors were advances in the assessment categories of environment, labor & human rights, and ethics. These resulted primarily from more transparent sustainability reporting and a higher level of certification in environmental, energy, and occupational safety standards.

Dr. Jochen Weyrauch, CEO of Dürr AG: "Sustainability is firmly embedded in our business activities. This is also reflected in our products, processes, and decisions. For example, we take measures to reduce greenhouse gas emissions at our sites and develop energy-efficient, sustainable technologies for our customers in a targeted manner. The platinum award in the EcoVadis rating is a confirmation of our commitment to date and at the same time an incentive to consistently pursue our sustainability goals." Among other things, Dürr aims to reduce its total greenhouse gas emissions by a further 30% by 2035 compared to 2024. This corresponds to a reduction of approximately 1.8 million tons to 4.2 million tons.

About EcoVadis

Since 2007, the independent EcoVadis rating agency has been assessing the sustainability performance of over 150,000 companies using a scale of 1 to 100 points. The companies receive bronze, silver, gold, or platinum awards depending on their percentage ranking compared to all companies assessed; platinum status is awarded to the top 1%. The EcoVadis rating takes into account 21 criteria from the four categories of environment, labor & human rights, ethics, and sustainable procurement.

The Dürr Group is one of the world's leading mechanical and plant engineering firms with particular expertise in the technology fields of automation, digitalization, and energy efficiency. Its products, systems, and services enable highly efficient and sustainable manufacturing processes – mainly in the automotive industry, for producers of furniture and timber houses, as well as in the assembly of medical and electrical products and in battery production. The Dürr Group generated sales of €4.7 billion in 2024 and currently has around 18,000 employees and 130 business locations in 32 countries. Since the sale of its environmental technology division at the end of October 2025, the business has been consolidated into three divisions:

- **Automotive:** painting technology, final assembly, testing and filling technology as well as production technology for battery electrodes
- **Industrial Automation:** assembly and test systems for automotive components, medical devices, and consumer goods as well as balancing technology solutions
- **Woodworking:** machinery and equipment for the woodworking industry

This publication has been prepared independently by Dürr AG/Dürr group. It may contain statements which address such key issues as strategy, future financial results, events, competitive positions and product developments. Such forward-looking statements are subject to a number of risks, uncertainties and other factors, including, but not limited to those described in disclosures of Dürr AG, in particular in the chapter "Risks" in the annual report of Dürr AG. Should one or more of these risks, uncertainties and other factors materialize, or should underlying expectations not occur or assumptions prove incorrect, actual results, performances or achievements of the Dürr group may vary materially from those described in the relevant forward-looking statements. These statements may be identified by words such as "expect," "want," "anticipate," "intend," "plan," "believe," "seek," "estimate," "will," "project" or words of similar meaning. Dürr AG neither intends, nor assumes any obligation, to update or revise its forward-looking statements regularly in light of developments which differ from those anticipated. Stated competitive positions are based on management estimates supported by information provided by specialized external agencies.

Our financial reports, presentations, press releases and ad-hoc releases may include alternative financial metrics. These metrics are not defined in the IFRS (International Financial Reporting Standards). Net assets, financial position and results of operations of the Dürr group should not be assessed solely on the basis of these alternative financial metrics. Under no circumstances do they replace the performance indicators presented in the consolidated financial statements and calculated in accordance with
